Standard

National Organic Programme of the United States of Agriculture and Control Union Certifications (CU)  
Standards

Control Union declares to have inspected the units mentioned in the report 813274EU/NOP-2009-01-GW and found that they are in compliance with the standard mentioned above. As stated in the Inspection and Certification report, the lands are In-conversion to Organic. Hence the products obtained from these lands carry the status "In-conversion products". These lands will obtain Organic status upon completion of the observation period and completion of the next inspection which will be carried out during the first half of 2010.

This document is issued for the interim period during which the products of this project remain In-conversion and will be replaced with the USDA (NOP) certificate once the lands are fully converted to organic.
